Objective: To obtain a full-stack web development role where I can utilize my skills in HTML, CSS, JavaScript, React, MongoDB, Django, SQL, and other libraries and frameworks to contribute to the development of innovative and efficient web applications.

Education:

Bachelors in Information Technology, Mount Kenya University, 2021-2025 (anticipated graduation)

Skills:

- HTML, CSS, JavaScript, React, MongoDB, Django, SQL, and other libraries and frameworks in full-stack web development
- Strong programming skills in Python and Java
- Proficient in Agile methodology and version control systems such as Git

Work Experience:

- Freelance Full-Stack Web Developer, 2022-Present
- Collaborate with clients to determine project requirements and design custom web applications
- Develop, test, and deploy web applications using the latest web development technologies and methodologies

Charity Work:

Volunteer Web Developer, Nairobi Children's Home, 2022-Present

Develop and maintain a website for the Nairobi Children's Home to increase their online presence and reach

Awards:

- Winner, Python Language Competition, Mount Kenya University, 2022
- Winner, JavaScript Language Competition, Mount Kenya University, 2022

As an information technology student, I am always seeking new challenges and opportunities to expand my knowledge and skills in the field. I am passionate about using technology to solve real-world problems and I am eager to join a team where I can contribute to the development of innovative and efficient web applications
